OUR contemporary the San Francisco Chronicle publishes an engraving which is described as the "harbour of Seoul, which promises to be the scene of naval conflicts." As Seoul happens to be an inland town on the Han river, twenty-four miles from Chemulpo, It is hardly likely to be the scene of any naval conflicts. The Chronicle's engraving is an indifferent picture of Chemulpo.

Mr. Heines, of the Customs, who compassed two miles and walked remarkably well, being his only opponent. Hancock covered the four miles in 331 minutes, which is slightly less time than he took to do the same distance here recently.

AMENITIES AT THE ALICE MEMORIAL HOSPITAL.

"Saul, Saul, why persecutest thou me?"

In laying before the public the following information relative to scandslous incident that have recently occurred in the Alice Memorial Hospital and the plague depot branch of that Institution at Kennedy-town, should be clearly understood that we have the welfare of that most useful infirmary and dispensary at heart, and that it is the hope that by calling attention to these unsavoury mitters (for which the Reverend between 9 and 10.30 s.m., on Sunday, to convey Pearce, of the London Mission, and Dr. Balley, men ashore to the 11 o'clock service, returning of the American Baptist Mission, are apparently large responsible owing to deplorable lack of tact and discretion, to use, at the present juncture, no harsher term) efforts will at once be made to effectually prevent a recurrence of such gross trregularities, and the audicious and illegal assumption of magisterial functions by a couple of irresponsible and presumably hypocritical followers of the lawly Nazarene in the future, enjoyable evening" was the verdict of the large

that we are induced to take this matter up. At first it was proposed to deal with the whole matter in one article, but as that plan of campaign would result in a good deal of interesting news A SEAMAN who yesterday appears to have mis- being beld over till Monday the better course to taken the American Consulate for a West End pursue will, under the circumstances, be to possession and then give the authors of all this trouble and unsavoury scandal the wigging they so richly deserve in a future issue.

In the first place, then, it should be stated that on the 4th July the Editor of this journal received a letter from a gentleman interested in the welfare of one of the medical students attached to the Alice Memorial Hospital and at once detailed a member of his staff to investigate the case, the result being that under the bead-line "The Plague in Hongkong" the following

"Complaints having reached this office relative to the treatment of several Chinese medical students attached to the Alice Memorial plague depôt at Kennedy-town, investigations have been made by a Telegraph reporter, who finds that these young men, six in number, have been practically forced to attend on plague patients, remaining on duty upwards of six hours at stretch, day and night. During their watches they are allowed a bowl of weak congee, bu they have to pay for any other nourishment they may require out of their own pockets. If these students had means it would not matter so much but as they are allowed only \$5 per month as proket-money and have to journey to and from the der ot in fricksbas, it is not inconceivable that the unpleasant and dangerous duty they are now performing is made unnecessarily uncomfortable and objectionable. Dr. Burton, th Superintendent of the Alice Memorial Hospital has gone on leave to Japan, his place having been taken by Dr. Briley of Swatow, and the hapless and half-starved students will no doub! take a holiday also if some improvement in their treatment is not speedlly effected. Surely some sort of refreshments could be provided for these lads who have done and are doing such useful work !"

The next day (6th July) Dr. Balley, a member if the American Baptist Misson who was Acting Superintendent of the Alice Memorial Hospital during Dr. Burton's absence on leave in Japan, wrote the following declaration at the head of a large piece of paper and endeavoured, bu unsuccessfully, to induce all the students in the Medical College to sign it :-

positively declined to LIE. To revert back to the 5th July, it should be stated that on that day the following statement was entered by order of Dr. Bailey in the Discipline Record Book of the Alice Memorial

Hospital :-"The following coolies have confessed to extorting money from patients, stealing articles of value the property of the friends or patients who have dled in Hospital, and stealing and pawning plague infected articles of clothing.

The punishment awarded is-1. Serve two months in Hospital without pay, 2. Restitution of stolen articles to the best of their ability.

"Chow A Kat complains that he is in danger of being classed with the dishonest coolies. "There is no evidence with them, and it is almost impossible to say how much he knew about the matters of extortions and theft. He should be paid and treated as innocent, Per T. I. B."

The above refers, we believe, to a number of articles actually stolen from dead and dying plague patients in the Alice Hospital plague depôt on the 30th June and divers dates prior thereto. Lam Ayong was, at the time, a sort of head coolie in the place. He is a Christian (1) member of the London Mission Church as also is his wife who teaches at that Mission's school at Wanchal. He was not handed over to the police, as he should lives. have been with a view to having the case investigated by those fully competent to so, and was not dismissed until, according to our information, Dr. J. A. Lowson, who heard about these dastardly robberies, informed a high officer of the Police who mentioned the matter to Dr. Balley who subsequently dismissed him and several other coolles. Lam Ayung is now in employment in the Columy, and perhaps the Reverend Pearce and Dr. Balley will be good enough to state how he obtained employment. On the other hand perhaps they wont []

Joseph refused to " give away ! his colleagues and very rightly told the Reverend Pearce that be failed to comprehend what the London Mission, of which he is the head here at present, had to do with the students in the College of Medicine. And the impudent psalm-smiting man in holy orders does not appear to have been able to explain his Christian-like conduct in a satisfactory or any other manner up to the present time. But the Telegraph will be happy afford him an opporlunity to do so next week. Here endeth the first lesson.

RECORD PASSAGE ACROSS THE PACIFIC.

ANOTHER "WHITE STAR" TRIUMPH.

It is not often now-a-days that the passages of trans-Pacific and trans-Atlantic liners call for special notice for the public has become quite accustomed to "crack passages," "record breakers" and so forth, which are the result of to life. able navigation, faultiess seamanship and the engineers' and modern shipbullders' skill. but it is, strange to say, generally conceded that upon the power of vessels' engines only depend the results of almost all long sea voyages. That is doubtless why many of the speedlest Atlantic and Pacific liners have next to no masts; the poles which are dignified with the names fore, main and mizen masts being in evidence more for effect than any practical use in either steadying or accelerating the speed of ocean "greybounds." There is, however, an old and distinguished firm of shipowners who have persistently stuck to the old style of naval architecture-square rig, and a sufficiently large spread of canvas to enable a commander to maintain full control of his vessel in the event of a breakdown in the engine department. We refer to the famous "White Star" inc of firet Atlantic and Pacific liners who have never had, as far as is known at present, any cause to regret the policy they have pursued and whose vessels are renowned as will for their splendid and seaworthy appearance as for the smartness of the passages from time to time effected in western and eastern seas. And to-day it is our pleasant duty to chronicle another record passage accomplished, this time, by the "White Star" liner Gaelle, Capt. Wm. G. Pearne, which arrived here from San Francisco at 8:36 p.m. last night, after covering the distance between Yokohama and San Francisco, on her last homeward run, in exactly 13 days 11 hours 1 minute, or an average of 336.72 knots per

> THE CHINA-JAPAN WAR AND THE INDIAN EXPORT TRADE.

The war between China and Japan is the absorbing topic of the hour in commercial circles in Bombay, and we hence place before our Anrico Lucches, an anarchist, who was arrested | readers the opinions of a number of representa-

manners in the Further East. Mr. S. M. Moses, of the firm of Messrs. David In the House of Commons Sir William | Sassoon and Company, ways :- "The war, which Harcourt moved the closure of the debate on has broken out between China and Japan, will the evicted tenents bill, and to apply the guil- of course affect our trade with those countries, loting to certain sections in order that the busi- while it lasts. The people's minds will be ness of the session might be finished by August | engaged in the issue of the conflict, and there oth. This was opposed, but finally the motion | will be want of confidence generally and curtailment of credit which will necessarily have an Mr. Balfour spoke with great warmth in opposi- adverse influence on the Bombay trade. Twist seized, and these articles were duly made over to afraid to venture out-and again the bankers to hospital where he subsequently died. The Morley followed Mr. Balfour, but the confusion | will withdraw their credits from the merchants. other prisoners were quartered in an hotel these two causes will, I fear, affect the consumption a notice of proceedings having been taken of foreign oplum in China. One of the reasons sprung up between Liverpo I and Japan, and American cotton is to some extent now being imported in Japan, which has taken the place in a measure of the India staple. I hope that the war will be of short duration. As all the European Powers are interested in the peace of both empires, they are sure to interfere and bring about a praceful settlement of the dispute

> Messrs, Tata and Son say that it is bazardous to form any opinion as to the effect of the war on the export of Indian articles of merchandise. Unless the hostilities take a further development, it is very unlikely that trade will come to a standstill, although of course, It will be very much diminished, there being little demand for Indian cotton in Japan while the people are engaged in war. If there is less demand, prices will go down, large stocks will remain in hand, and

trade would suffer. The manager of another leading firm of exporters to the Further East said that he did not agree cotton in Japan was due to the war. An association called the "Japanese Union" has been formed in Japan, which refuses to take cotton The Union Bank is determined to enforce the from those who are not members of the Union. member disregarding the rule. Europeans have not yet joined the Union, although the members refuse to buy cotton from foreigners who are non-members. This was assigned as the cause Japan during the current year. The Nippon-Bombay line of steamers alone take cotton to A Fook, at Watkins & Co., Hongkong,-[Advt. Japan for the members of the Union. Nonmembers are at present, said our informant, unable to do anything in the matter. Unless During the journey from he Palace after the Inpanese line of steamers carried the English flag, the merchants would be afraid export of yarn from Japan in order to increase the trade with China, which has up to the present export cotton to Japan, the latter will have to there is the difficulty that the Japanese Union. would hesitate to take cotton carried by any outside line of steamers.

Mr. S. Abraham, of Messrs, E. D. Sassoon and Co., said that it was premature to give any opinion at this stage as to the effects of the war on Indian trade, as nobody yet knew what developments the war might take. So long as vessels sailed under the English flag, Indian merchants were not likely to suffer greatly. The The Imperial Treasury has approved of the trade with the free posts would be carried on by means of English and other foreign steamers.

A Japanese, who has a mercantile business in condition of affairs is unfavourable to trade are airaid to ship their goods to Japan, in such disturbed times. He continued: "The Japanese mills are getting half the amount of their consumption of cotton from Chins, and if the mills do not stop work they will be obliged to take Indian yarns instead of Chinese. Should Union do not apply to cotton exported from At present there are eight Russian warships China, and consequently there is nothing to Japan had already ordered out cotton from China for consumption, and therefore there is not at present a demand for the Indian cotton of higher price. China cotton is not superior to Indian cotton, but it is cheaper. The Japanese spin yarn up to number eighteen from Chinese cotton mixed with Indian. From number eighteen upwards they use a great deal of Indian, very little of the Chinese product being mixed with it. Japan consumes most of its production, and at present very little yarn is The French police have warned the authori- consigned to China, Indian yarn being cheaper

consign it to that country in time of war. A China merchant said that the trade between

with China was confined to those ports. A Parses merchant of long standing said that, if anybody suffered in trade, it would be the Japan merchants. The Indian traders would be afraid to give the same credit to the merchants in Japan as they had hitherto done.

Notwithstanding this view, it may be said that generally speaking the merchants in Bombay do not apprehend any serious injury to their trade. -Bonebay Gazette.

NETHERLANDS INDIA.

At Probolingo on the 6th instant, the German ship Werra came into collision with the British covered that he was wearing a man's trousers.

This man remarked to the police, "You the Dryfesdale was able to proceed to her see I am not in female attire !" while the destination, Port Said. The Werve also shortly suspect stated that he was a female ! streswards salled for Hamasang to load sugar.

The import trade at Sourabaya fares badly under the existing depression, and, on the 8th Inst., received another shock by the failure of three Chinese traders in quick succeeden. Other fallures among Chinese were in prospect, and the outlook is the darker from the slender chance of any improvement in business there in the near future. A few days previously, an Arab trader there had failed and had offered his creditors a composition of forty per cent., which they accepte !. Of late years, very few ir solvents there have offered anything like that percentage; and, as matters now stand, there is very little chance indeed of insolvents satisfying their

creditors with such high figures. At Sourabaya, also, voices have been raised against liberty given to Asiatics there to retail poison. Every precaution is indeed taken that European doctors and apothecarles should be fully qualified, and be restricted in the sale of polsons. But, on the other hand, any Aslatic can buy openly, in the public markets, enough poison to kill dozens of people, and can also set up as a quack at pleasure.

The Dutch Government has notified a proclamation of neutrality in re the China-Japan war. The Government steamer Sperwer brought to Sourabaya on the o'h instant the arms recently selzed in Ball waters; for the alleged attempted smuggling of which there two Englishmen and a Dane had been arrested. No less than tol repeating rifles and the accompanying ammunition, says the Sourabaya Courant, had been against them in court. Justice moves so slowly why cotton exports to Japan are less than during | in Java that, probably, it will be a long while last year is, I believe, that a new trade has before the trial comes off. The Batavia Nieuwsblad says that a fourth alleged arms interior of Ball.

At Sourabaya, a match factory has been started, the article taking turned out after the Swedish pattern. The promoters expect to do a good business, owing to the rival matches from Japan having gone up in price in Java, since the outbreak of the war in Korea.

In Lombok, the course of events flows more smoothly. The rebellious Mahommedan islanders or Sassaks as they are termed, have agreed to come under Ballnese rule which they had almost succeeded in throwing off when the Dutch expedition landed. They are, however, to be put under the protection of the Netherlands India Government. -- Straits Times.

CONSUMPTION, Wasting Diseases, and General Debility. Doctors disagree as to the relative value of Cod Liver Oil and Hypnehosphites; the with the view that the falling off of demand for one supplying strength and flesh—the of ber giving nerve power and acting as a tonic to the digestion and entire system. But in Scott's Emulsion of Pure Cod Liver Oil with Hypophosphites the two are combined, and the effect is Office of wonderful. Thousands who have derived no permanent benefit from other preparations have been cured by this. "Scott's Emulsion" is perfectly palatable, and is easily digested even by those who cannot tolerate plain Cod Liver for Hongkong and the Empire of China:-Chan
